Examiner Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Lawrence J. Chapa on March 16, 2004.

2. The application has been amended as follows;

IN THE CLAIMS:

Claims 1-20 have been cancelled.

The above examiner's amendment was made to clarify the claims.

Allowable Subject Matter

3. The following is an examiner's statement of reasons for allowance:

Regarding to claim 21, the prior art fails to teach a combination of the steps of:
creating the IP packet comprising:

a virtual internet protocol address corresponding to a plurality of physical end nodes served by an access point; and

a data field comprising:

a destination identification corresponding to one of the physical end nodes of the plurality of physical end nodes, said one of the physical end nodes being a destination for the IP packet; and

user data;

communicating the IP packet to a first access point, serving a plurality of physical end nodes, over an RF network including one or more access points, communicatively coupled to one another, wherein at least some of the access points, each, serve one or more physical end nodes, via one or more wireless communication links, and one or more of the access points are connected to a wire network;

transmitting, by the first access point, the IP packet;

decoding, by the plurality of physical end nodes served by the first access point, the data field of the IP packet for determining the destination identification of the IP packet; and

determining by each of the plurality of physical end nodes whether it is the destination for the IP packet, in the specific combination as recited in the claim.

Regarding to claim 28, the prior art fails to teach a combination of the steps of:

a wired network;

a first access point operable for communication via a first wireless link;

a first plurality of physical end nodes communicating with the first access point via the first wireless link, sharing a first virtual internet protocol address and, each, having a separate destination identification included within a data field of any IP packets intended for the corresponding physical end node; and

a second access point connected to the wired network and to the first access point via a second wireless link, in the specific combination as recited in the claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
